

The GMAT[®] Scoring Scale

Conversion Matrix

Percentile - Scaled Score Conversion Table

If you know your scaled score (on a practice test) use this table to get your percentiles and vice versa:

<u>Quant</u>				<u>Verbal</u>			
Percentile	Scaled Score	Percentile	Scaled Score	Percentile	Scaled Score	Percentile	Scaled Score
99	51	30	31	99	46-51	40	26
94	50	29	30	98	45	36	25
88	49	25	29	97	44	33	24
84	48	24	28	96	43	29	23
79	47	20	27	95	42	27	22
77	46	19	26	92	41	23	21
75	45	16	25	89	40	19	20
70	44	15	24	87	39	16	19
68	43	13	23	83	38	15	18
63	42	11	22	81	37	12	17
61	41	10	21	78	36	10	16
59	40	9	20	74	35	8	15
55	39	8	19	69	34	7	14
53	38	7	18	66	33	5	13
51	37	5	17	64	32	4	12
46	36	4	14-16	58	31	3	11
42	35	3	13	56	30	2	10
40	34	2	11-12	53	29	1	7-9
38	33	1	7-10	48	28	0	6
34	32	0	6	43	27		

Scaled Score – Final Score Conversion Table

If you know your scaled scores (on a practice test) use this table to get your estimated final score range (out of 800):

Step 1 – Add up the raw scores for the two sections to arrive at the TRS ‘Total raw Score’. For example if you’ve scored a 48 in Quant and a 44 in Verbal your TRS is 92 (48+44).

Step 2 - Use this TRS to get your final score range out of 800 from the table provided below

<u>TRS</u>	<u>Final Score</u>
12-25	200
26-28	210-220
29-31	230-250
32-34	260-270
35-38	280-300
39-41	310-330
42-44	340-350
45-48	360-380
49-51	390-410
52-54	420-430
55-58	440-460
59-61	470-490
62-64	500-510
65-67	520-530
68-70	540-560
71-73	570-580
74-76	590-610
77-79	620-630
80-83	640-660
84-86	670-690
87-89	700-710
90-93	720-740
94-96	750-770
97-100	780-790
101-102	800

Note:

All numbers are approximations and the actual score could be different from these. (However this difference should not be more than 10 points)
